EDUCATION

LE WAGON

Data Analytics Bootcamp
Batch #2295 2026

Google / Coursera

Google Data Analytics Professional
Certificate 2026

EFOMM - CIAGA

B.Sc. in Nautical Sciences - Marine
Engineering 2016-2018

SKILLS

- Python / R
- SQL / BigQuery
- dbt
- Power BI / Looker Studio
- Excel / Google Sheets
- APIs / Insomnia

LANGUAGE

- Portuguese — Native
- English — Fluent

ABOUT ME

Data Analyst with a background in Marine Engineering, currently completing intensive training in Data Analytics at Le Wagon. Skilled in Python, R, SQL, BigQuery, Power BI, Looker Studio and dbt, with experience in data cleaning, exploratory analysis, visualization and Machine Learning. Former Merchant Marine Engineering Officer, bringing strong analytical problem-solving, attention to detail and experience working in complex, high-responsibility environments.

EXPERIENCE

Career Transition – Data Analytics

Le Wagon / Independent Projects | 2026 – Present 2026

Developing hands-on projects using Python, SQL, Machine Learning and data visualization. Working with data cleaning, exploratory data analysis, APIs and analytical workflows to extract insights from real-world datasets.

Second Engineering Officer

Tidewater / Sapura / Bram Offshore 2021 – 2026

Operated, monitored and maintained complex marine engineering systems in offshore environments. Diagnosed technical issues, analyzed operational parameters and supported troubleshooting and maintenance activities. Coordinated crew members and worked within multidisciplinary teams under strict safety, reliability and operational standards.

Engineering Officer Cadet

Transpetro – Petrobras Transporte S.A. 2020-2021

Supported engine-room operations, equipment monitoring and preventive maintenance aboard oil and LPG tankers, developing a strong foundation in technical analysis, safety procedures and systematic problem-solving.

Brazilian Navy

Officer / Military Training 2016-2018

Developed discipline, accountability, adaptability and teamwork through military training and service in a highly structured and demanding environment.

PROJECTS

Les Misérables Dataset

AI-Assisted Data Extraction | Data Curation | Data Structuring

Created a structured dataset from Les Misérables using AI-assisted data extraction to transform unstructured literary text into organized data on characters, chapters, locations and historical events. Curated, validated and documented the extracted data to produce an analysis-ready dataset.
